The Urantia Revelation: The Structure And Meaning Of The Universe Explained

Synopsis

This book, now in a second edition, presents a digest of what The Urantia Book says-the gist of it, the main outlines of the story. As such The Urantia Revelation: The Structure and Meaning of the Universe Explained will serve as an introduction and guide to The Urantia Book, or as simplified and accessible substitute for those wishing to know what was revealed in the fifth epochal revelation on Planet Earth. There is hardly anything more interesting.

Customer Reviews

I must say I am a little prejudice. Yes, I love everything to do with the Urantia book! This book is designed to be a precursor for the big book. It breaks it down into bite size pieces- easier to digest. Hopefully after reading this one you simply MUST read the big book and you have a better understanding of what you are going to find. I mean how exciting to find a newer greater revelation written by celestials! They DO use big words. Mr Locke has helped explain that! In fact I love the way Mr Locke breaks it down for us. You may still say, "what?" Because like all new ideas, we have to think on them and decide for ourselves if it could be true. Keep reading! I give it 2 thumbs way up!

The Author need to hire a professional narrator. The recorded audio seems to be distorted from production. Intonation and pitch sound like an emotionally ridged but excitable person. The choice for narrator had to be the Author not asking for opinion before release or something is wrong in the chain of audio deliver or production. I can't bare listening for more than five minutes through the best of content. The assessments and opinion are well thought out in the text. A good read but poor listen.

An incredible book beyond your imagination - not religion but the history of the universe and that of humanity itself - read it slow and thoughtfully with an open mind. Am reading it a second time.

If you are a Urantia Book reader, this book is a must. Even after reading the entire book and studying it for eight years, I found this book helpful to connect and clarify many of the Urantia Book facts in a more easily understood language. The Glossary of Urantia Book terms is worth the price by itself. I highly recommend this book.

As important read for everyone seeking the truth. It reveals the Bible in importance. It is a must read for truth seekers

Although not a substitute for reading the Urantia book, it's very helpful in explaining some of the more enigmatic concepts.

This book (a digest of The Urantia Book) offers interesting information about the history of planet Earth (Urantia) and the origins and evolution of humanity. The last part concerns the life of Jesus of Nazareth and his greater existence in the spirit world as Michael of Nebadon. Is the information accurate? Who knows! All channeled material, even the best one, contains distortions and generally only holds part of the truth. I have read numerous channeled books by various authors and felt confused at times by the discrepancies that exist among them. For example, some deny reincarnation (e.g., the Padgett writings), others embrace it. While I keep my mind open to new considerations, some of the channeled stuff out there is questionable.

Great
