Just looked through real fast and seems so far on the money

Really fun tab book with LOTS of songs! My only issue is that they try to tab out a lot of the  
strummed chord progressions which end up making some songs seem more complicated than they  
really are. All in all a really enjoyable book, I'll probably buy another volume at some juncture.

So many songs! And they are written exactly as they sound. So happy with these books!

Lots of songs, lots of stuff from bands I wouldn't want to spend money buying a while book of theirs -- the "one hit wonders". A good purchase. Only thing that is somewhat of a problem is that, having so many songs, the book is thick, even using the very thin phone book type paper, and therefore can not be put in my music stand. I also own volumes 1 and 2 of the guitar collection, and the bass guitar one, and they are all great.

Gift that was accepted with smiles.

Five stars, Excellent product and excellent seller, very good!!

Hal Leonard's Guitar Tab White Pages collection is an excellent value for the discerning guitarist looking for quality tab of the songs most know and love. I would strongly recommend this series to any serious musician.
