How To Build The Catspaw Dinghy: A Boat For Oar And Sail

Synopsis

A detailed manual on the building of a superior rowing and sailing dinghy. A modified version (carvel instead of lapstrake planking) of the famous Herreshoff Columbia model, this measures 12'8", makes an excellent project for the boatbuilder with intermediate skills.

Language: English

ISBN-10: 0937822361

ISBN-13: 978-0937822364

Product Dimensions: 8.3 x 0.1 x 11 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 3 customer reviews

Best Sellers Rank: #1,190,634 in Books (See Top 100 in Books) #28 in [Books > Engineering & Transportation > Transportation > Ships > Boat Building](#) #1035 in [Books > Sports & Outdoors > Outdoor Recreation > Boating](#) #3142 in [Books > Sports & Outdoors > Water Sports](#)

Customer Reviews

Good book

good info

This is an excellent reference for those who wish to build a sailing dinghy using traditional methods. However, it is somewhat dated. The book acts as though things like plywood and epoxy are not in existence. You'll have to go a long way to convince me that copper rivets are better than weatherproof deck screws. Regardless, if you are trying to understand traditional methods of small craft construction, this book is a real time saver.
