Just an outstanding picture book full of "Complete Locations" from all the SW movies with cross sections, maps, beautiful drawings, fold outs and details about each. Where to start? My daughter, age 12, will be Rey for Halloween. We've made a decent replica of her outfit and staff. I saw the cover of the DK (we've used DK for travel many times to give you a look at what you'll see) showing Rey's AT-AT home. It lays it out on 2 pages (and the book is a large book with ~200 pages, everything in color) all the many details about her home with trap doors, living space, 'garage' for her speeder, Y-wing salvaged computer and flight simulator, etc; including short write-ups about the details, e.g., she wove her sleeping hammock as a child. Also, on the Episode 7 chapter, there's a neat map of Jakku, that lays out the land and where Rey travels, Maz's castle, Resistance base, First Order Military, and Starkiller Base. The kiddoes are hoping for a Rey sequel soon. The colorful book starts with a forward by SW production designer Doug Chiang. There's an intro about the Republic and Empire showing their galaxy and giving interesting planet profiles (I know so much now). Episode One includes: Naboo, Otah Gunga (think Jar Jar), Droid ship, Mos Epsa on several pages including a pull-out, Watto's Junkshop, Anakin's hovel, several battle fields and cities. Episode 2 goes into detail about those prolonged speeder chases, Outlander club, Jedi temple, romantic Naboo retreats, Kamino, Tipoca city, Tatooine and space ports, Geonosis (the ringed planet), droid factory and many more talking about the different battles and forces involved. Actually, flipping through this volume has clarified many things about these movies which I found more complicated than the earlier ones (Episodes 4-6). Episode 3: Coruscant Battle (quite detailed), Jedi temple complex, Palatine's office, Utapau, Pau city, Kashyyyk (Think Wookies. It's making my head spin with all these names!), a Wookiee tree (kids like it), more battle fronts, Mustafar and the

famous, and, I think, over drawn out, as far as the movie, (Episode 3 is not my favorite) duel scene, Polis Massa, and a medcenter. Episode 4 (my favorite episode): Tatooine map in detail, Lars homestead, Ben's house (neat place!), Mos Eisley (of course) and the Cantina (I can hear the music), Death Star cross section, and the Great Temple seen near the end of the movie (Hmm, never thought much about that). Episode 5: a really nice expansive fold-out of Battle of Hoth and Echo base, Dagobah and Yoda's house, Cloud City. Episode 6: Jabba's Palace (No Pizza Hut!) and throne room, Battle of Endor, Ewok village (again, a kid's favorite), Death Star- numero 2, Emperor's lair, and Executor Command Tower. Finally, there's a table of context and index, but just browsing will keep you and your children fascinated for hours. Just a brilliant work with creative, incredible drawings- food for the mind, fun for the heart. P.S. Sorry about any misspellings. My Spell Checker was going crazy!

Incredibly detailed book that feels more like a college textbook than a work of fiction. The authors have painstakingly brought to life your favorite locations and provide a myriad of notations and details that only the biggest Star Wars nerd would love. If you are even considering this book, then make the purchase! Incredible illustrations, charts, maps, and new expanded universe information make this a must have. Only minor quibble is the print can be very small in places.

You have to be a fan with time on your hands to enjoy this. If you are, and if you want more than you get from the films, this is a really cool way to see if what you've imagined was right. Great fun and beautifully illustrated.

Very detailed book on all locations between the 7 main Star Wars movies. I wish it included CW, Rebels and Rogue One but it doesn't. I guess because Rebels and Rogue One have their own books and CW is covered in other books and would add a lot to this one. Provides maps, location descriptions, background information and paths of characters. For instance, Dooku, Yoda, Anakin and Windu's routes and own colors on Geonosis. It also has buildings and room cut aways for most major locations from the movies.

Compared to the previous release of the same book...it's way too small. I mean, the original was a huge book; and that is what I was expecting with this version. I was also hoping for a better, more detailed version of Starkiller Base's interior (like the Death Star's layout) :(

It is ok, NOT at the level of really high art creativity and so forth. More like a kid's book that shows diagrams and so forth, NOT the sketch book an artist that is into developing this sort of stuff would see as a must have.

I think I'm having more fun reading it than my 4yo! There's lot of details in the drawings to spend time looking at and lots of stuff to read. Wish there was less prequel stuff though.

This was bought for my son as a gift and he loved it.
