# Teen Book Series: Peer Pressure Vs. True Friendship! Surviving Junior High (A Self Help Book For Teens, Parents & Teachers)

## **Synopsis**

\*\*\*\*\*#1 KINDLE BESTSELLING TEEN & YOUNG ADULT SCHOOL & EDUCATION\*\*\*\*\* Surviving junior high! - Discover how to deal with peer pressure and find your true friends. It all started as a joke. It was on one of those days when we could feel that summer had almost arrived. Three boys of my class got hold of one of the quiet geeky kids, and for no special reason decided to pull a prank on him. They tied him to a chair in the middle of the playground and stripped off all his clothes - even his pants and shorts! Interested to read what happened next? Read this and many more fun and exciting stories to find out! A must read for all teens, parents & teachers. This teen's book (age 12-16) gives exceptional, effective, easy to implement tools for dealing with peer pressure issues and true friendship in junior high school and includes:.

True life short stories about growing up! Tips, helpful rules, simple to do exercises! Fun self test yourself questionnaires. A personal journal All of which will help you discover How to deal with peer pressure, How to be "Simply Me" and most important - how to survive junior high! Don't forget to scroll back up and grab your own copy of this beautiful teenage book while the price is still low or read it FREE as part of your PRIME or Kindle Unlimited membership \*\*

## Customer Reviews

As a mom of 5, with two children in the age bracket for this book, I was very interested in reading and learning how I could better help my children with peer pressure. As I do with every book I recommend to my children, I wanted to read it first and understand what they were going to be learning. I remember very well, my own experiences, and despite telling my children about them, I know that sometimes a third party has more 'authority' than my "When I was your age..." stories. What I liked about this particular book is the author's use of stories. After all, stories engage the reader far more than a lecture, and these stories were real...and relatable. The questionnaires are helpful to the reader to see where they currently stand on issues of peer pressure. Based on the "score" there is an explanation to help the reader understand what they are personally dealing with gentle suggestions to guide them forward. I also liked that the principles within this book apply to anyone of any age (myself included) but that they are worded in such a way, alongside entertaining albeit embarrassing at times, stories that speak on a level the reader can relate to. Not speaking over their head or in long-winded lecture format, but simple to the point statements that are gentle, yet effective. I will definitely be sharing this with my older two children who are 12 and 13 as I think they both will find it helpful, and may even want to share with some of their friends as well. I will be buying the other books in this series as it will be a great opportunity for us, as a family, to read and discuss these concerns and how to work through them. With the help of these books, it will be easier to approach challenging subjects that would otherwise not be discussed.

This book takes a look at basic human nature in specific types of circumstances: School relationships. Much of the information is very simple, but well illustrated with examples of different types of situations that may be encountered. I don't know if I would recommend this book to the teen so much as to the parent or teacher as a guide to use for talking about these issues with the students.

While I was searching long and hard for a good peer pressure management volume, I found this. At first I was not quite sure whether this is with something that could give me a good idea on how to cope up with the peer pressure. But this book does it all. I guess I was expecting less, because it is recommended for the 12-16 age group. But still the content is really rich even an adult can take

things which may be hard for parents to get across. The most significant thing I found in this volume is the conjunction with true stories from different personals with helpful tips to apply the similar situations in your life. Finally it's a great volume surprising how children exposed to peer pressure vs. true friends which can help improve their attitudes and dynamics!

My 4th grade son and I read through parts of this book together, and we were able to discuss a lot.

Just what I wanted

This is the fourth ebook I have read by Dr. Orly Katz and all four of them are great ebooks. This is a great ebook for children to read because it will help them to cope with a lot of peer pressures that they might experience in their younger years in and out of school. It is also a great ebook for parents to read so they can best help their children if they are having a peer pressure problem. This ebook will also help an older person because in a work environment they too can and do experience peer pressure very similar to what their children might experience. This ebook is amazing and I recommend it as a great read to anyone.

This is a great book to help teenagers deal with all the pressures of life and school at that age. It is written to help children take control of their environment, to not be victims, to stand up for themselves, and to feel confident about themselves. It does say ages 12-16, but I would recommend that parents read it first to see where if their child is ready. The lessons that are taught in this book are so relevant and so needed today. Every student will benefit from reading this book. I love that it teaches teenagers how to say "no" to bad situations, and I also love how it helps kids learn and understand the consequences of some of their actions. Dr. Katz does have a chapter on the internet and how to use it properly, or what can happen if you use it improperly, and I think this one might be the most important. With the invention of the internet, bullying, spreading lies and rumors, and many other situations are so much worse than they were when I was a teenager. Now those lies can be spread to hundreds of people in a matter of seconds, and they will always be out there. Yes, that internet chapter is very important. I think this book is greatly needed today; it is a great resource for parents and teachers alike. There are a couple of examples in this book that some parents may not be comfortable with their 12 or 13 year-olds reading. There are some sensitive topics discussed, but I do think they are really important for parents to discuss with their children. I would recommend parents and children reading and discussing this book together. You
