The book is very easy to read and interesting if you are planning to start an Anti-Inflammation diet. I would highly recommend this book to you.

once again...this was ordered for my 82 yo mother who is constantly looking for better diets and choices to keep her here cooking and doing yard work that she enjoys...she has enjoyed this book.

ITS OK,,,WOULD HAVE LIKED TI TO BETTER CONVEY WHAT ER WANTED TO KNOW,,

I use this as a reference book. There is a lot of information in it. Also some pretty great recipes. Easy to understand. well thought out.. I would really recommend it.

Information was very informative; needed this basic information. Thanks for your fast and courteous

support.

Just what I needed to start the anti-inflammatory diet.

Gives you all anyone would need to know about this subject. I have diverticulosis and following an anti inflammatory diet cuts down and almost eliminate flare ups. I also Benefiber or the Wal Mart generic which is less expensive.

I thought this book did a good job of laying out the basics. Also has some lively recipes like baked halibut with Cajun spices and collard greens or beans and rice with fennel.
