I'm using this book to teach a free English grammar class to for native speakers in Taiwan. For that, it's good because it's clear and inexpensive. But there are some errors and places where the author introduces contradictions so it needs a teacher to keep the students on track.

As a college student that struggles with the whole grammar stuff, finding this book is such a blessing! This is absolutely awesome! So much information packed into this book and it's soooooo affordable! Thank you so much!

It is a good book for kids learning elementary English, especially non English background kids? Hope more people enjoy it.

Nice collection of helpful information covering all of the basics.

Not worth getting. This does not cover English Grammar Basics.

Well designed for beginners.

A handy little reference. Great for ESL students.

Excellent and affordable reference that we recommend to everyone in our ESL classes here at my non-profit. There are many grammar books to chose from but we have found this to be very useful thus far.
