The New Woman: Literary Modernism, Queer Theory, And The Trans Feminine Allegory (FlashPoints)

Synopsis

The New Woman: Literary Modernism, Queer Theory, and the Trans Feminine Allegory traces the use of the trans feminine as an allegorical figure, from the practice's origins in nineteenth-century sexology through writings in the fields of psychoanalysis, Modernist fiction, and contemporary Queer Theory. The book is the first to identify the process by which medical sources simplified the diversity of trans feminine experience into a single diagnostic narrative. It then demonstrates that this medical figure became an archetype for the "sexual anarchy" of the Modernist period in works by Aldous Huxley, James Joyce, Djuna Barnes, T. S. Eliot, and Jean Genet. Thus illuminating the trans feminine's Modernist provenance, the book examines foundational works of Queer Theory that resuscitated the trans feminine allegory at the end of the twentieth century. Insightful and seminal, The New Woman debunks the pervasive reflex beginning in the 1990s to connect trans experience to a late twentieth-century collapse of sexual differences by revealing the Modernist roots of that very formulation.

"Heaney provides insightful and informed analyses of a wide range of writings from the modernist era, in the context of medical, psychoanalytic, feminist and material challenges to binary notions of gender and sex. Reading what she terms a 'trans feminine archive' of first-person accounts, Heaney argues against the figural appropriation of the trans feminine, detailing a range of

trans experience and the various ways individuals have related to their bodies and sex experiences. Her argument is compelling, important, and timely." — Pamela L. Caughie, author of *Virginia Woolf and Postmodernism: Literature in Quest and Question of Itself* "While trans masculine studies have helped to redefine both Queer Theory and literary Modernism, trans feminist studies have largely been absent. The theoretical insights of this book will provide an original and long overdue addition to the fields of Queer Theory, Modernism, and twentieth-century literary and cultural studies." — Jaime E. Hovey, author of *A Thousand Words: Portraiture, Style, and Queer Modernism*
