A Pocket Style Manual: 2016 MLA Update

Synopsis

THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATES! Our editorial team has updated this text based on content from The MLA Handbook, 8th Edition. Browse our catalog or contact your representative for a full listing of updated titles and packages, or to request a custom ISBN. Your students need clear, complete answers to their questions about research, writing, and grammar—and they often need them at a moment's notice. As their teacher, you are their greatest resource, but you can't be available 24/7. For help with work in class and at home and especially for questions at odd hours, students can turn to A Pocket Style Manual. The thoughtfully revised seventh edition makes it even easier for students to effectively and independently address their writing and research challenges. With 325 documentation models in four styles and coverage of drafting thesis statements, writing correctly and effectively, finding and evaluating sources, and writing research papers, A Pocket Style Manual supports writers across the disciplines.

Customer Reviews

Diana Hacker personally class-tested her handbooks with nearly four thousand students over thirty-five years at Prince George's Community College in Maryland, where she was a member of the English faculty. Hacker handbooks, built on innovation and on a keen understanding of the challenges facing student writers, are the most widely adopted in America. Hacker handbooks, all published by Bedford/St. Martin's, include The Bedford Handbook, Ninth Edition (2014); A Writer's Reference, Eighth Edition (2015); Rules for Writers, Seventh Edition (2012); and A Pocket Style

Manual, Seventh Edition (2015). Nancy Sommers, who has taught composition and directed composition programs for thirty years, now teaches writing and mentors new writing teachers at Harvard's Graduate School of Education. She led Harvard's Expository Writing Program for twenty years, directing the first-year writing program and establishing Harvard's WAC program. A two-time Braddock Award winner, Sommers is well known for her research and publications on student writing. Her articles "Revision Strategies of Student and Experienced Writers" and "Responding to Student Writing" are two of the most widely read and anthologized articles in the field of composition. Her recent work involves a longitudinal study of college writing to understand the role writing plays in undergraduate education. Sommers is the lead author on Hacker handbooks, all published by Bedford/St. Martin's, and is coauthor of *Fields of Reading*, Ninth Edition (2010)."

This is the single most used textbook/reference book I've ever had. I use it for every class that requires writing. My old edition was from 2003 and I finally upgraded with the major 2016 changes. It's well worth it.

I'm used to writing in APA style but for one of my majors the majority of the classes require MLA. This is easy to keep with me when I travel so I can double check my papers before I submit them. Well worth the purchase.

Just what it's supposed to be. Bought it for a high school student that needed it for a class. Much better price than at the bookstore.

This book contains great information about the MLA update and is neatly organized! Great to have in your backpack to remind you of the rules for MLA.

This book was required for my ENG 101 class at college, and the information inside was very helpful when I had to do my essays. It showed me how to cite my research in the papers. I still keep it handy when I need to write some essays for school to make sure I have used the proper format. I'm an international student and I recommend it to anyone who speaks English as a second language.

Very helpful.

The book is easy to use for references to the different formats that are required in an academic setting, but I would like to see a better quality print. This is the second version I have purchased, and both versions tear easy when turning the pages at the binding. Besides that the book is awesome!

I hate that this book is 80% similar to the one before it that being said it's good quality and solid purchase good for English 21-101 classes
