Tantric Massage: Mastery, 28 Ways To Give The Perfect Tantric Massage

Synopsis

Become A Tantric Massage Master! Today only, get this kindle book for just \$2.99. Regularly priced at \$4.99. Read on PC, Mac, smart phone, tablet or Kindle device. There is a lot of misunderstanding around the ancient school of thought of Tantra. Most people associate this with something that they should avoid. They think that it is all about sex or that it has some form of dark magic with it. It is not something that should be talked about in polite company and most people will not even take the time to even look it up. Tantra is not something to be ashamed off and it is not all about sex. While it can heighten your pleasure during sex, there is a lot more that can go into this school of study and you can easily perform it without having sex at all. This guidebook is going to spend a bit of time talking about what Tantra is as well as tantric sex and then spend a bit of time going into the steps you should take and the proper tips in order to make this work for you. Customer Reviews

This book is not what I think it is. It was unexpectedly helpful. This book has a guide of what is the

best thing you can do before and after making love. From low performance to higher level of making love and its health benefits. The physiological principles and descriptions throughout the book which were verified to be all true after following the guidelines. My approach has been changed forever. Anyone I discuss it with appears to be naturally drawn to the concept as well. It also discusses sexual dysfunction which makes a lot of sense. I highly recommend this book not because it gives a clinical technique on how to please a women, rather it's more of an inward journey into oneself. This is the best book to enhance your sexual drive and mental health.

To be honest I never really knew what Tantric massage was, to me it sounded erotic and I never put much more thought into it. That was until I found this book, while infact it is part of a religious practice. This book tells you how to prepare yourself and space to perform the massage. My favorite tip was the use of a feather. It covers the entire body and encompasses the need for people to 'touch' another person. Sort of like its hardwired somewhere deep in our primitive brains that we crave the touch of our life partner.

This book has given me a new way of exploring intimate recognition of body parts through the procedure of tantric massage. Such alternative form of massage can surely benefit me and my partner in relieving stress and in inducing more pleasurable moments in a very wholesome way. Practically, the guides and tips to get the most effective results of tantric massage are very easy to follow. They are also well-presented in this book.

going to give it a try

As the title of my review suggests, there is no mastery in this book whatsoever. Arguably, it's an introduction to Tantric massage at about a sixth grade writing level.

This book is great for beginners. It has informative descriptions on moves and lovely tips. It even tells you how to create perfect intimate atmosphere for new exciting experience in bedroom. We read it together with my wife and both enjoy it. Thanks for teaching us Tantric massage, it was perfect and just in time. Recommend!

I've been looking for alternative ways to relieve stress for some time now. For the most part, I've used the gym for my stress release but it just doesn't seem to be working like it use to. That's when

I found this tantric massage! It's a good thing my wife is on board for giving this a try.

This isn't a book, its a pamphlet. I was pretty disappointed.
