This book is adorable. This book is bright and well done. There are a few steps for each "character". The animals vary from house pets to woodland type creature and others. Many different dogs and cats. They have pages with multiple dogs drawn and what their breed is. The same with cats. I feel that this book is great for the older range of kids, maybe 10+ but if you have a dedicated young artist, this is a fun way to try something new and work on your skills. The book is in color and the examples are perfect. Will continue to purchase these types of drawing books!

well it is not worth the price i can you that its very thin and does not really help much!!! i mean it is cute and all, but not many pages or details. The cover looked inspiring but i was a bit disappointed, was not what i expected, it okay i guess, i might give it as a gift to a kid...

I bought this book for my daughter who loves to draw Kawaii animals. We were both disappointed with it, I guess we expected it to have more drawing examples like how to draw a pig or a cow or any animals other than the few shown on the front cover. If you want to vaguely learn to draw those animals on the cover than this is the book for you. If you want more keep looking because I haven't found a book like that yet either.

I bought this for my granddaughter who loves to draw. She really loved the book. There are lots of examples in the book on how to draw the different animals. Very clear instructions. Colorful and easy to follow along.

Very cute! great for my daughter she's learning to draw and this is perfect for her. I love the characters in it. Looks easy for beginners. Good quality book for price. Delivered on time as well. Thank you!

Want to learn how to draw super cute pets this book will give you samples and directions of how to draw many types of animals like breeds, backyard, sea creatures, and exotic animals with how to tips. Cute book to add.
