I bought the three books available in this series: Illustration School: Let's Draw Plants and Small Creatures, Illustration School: Let's Draw Cute Animals and Illustration School: Let's Draw Happy People. I can recommend all of them and am posting this same review for all three books. While these books may be targeted at children, I think adults can enjoy them as well. There's a lyrical way to which the drawings are taught. There isn't a big focus on the minute details of getting things right. Instead, the focus is on encouraging the reader to just get into doodling. That, there are no wrong strokes. The illustrations are fun and the paper of high quality. I enjoy touching this book as much as I enjoy looking it. As to whether I have become a master doodler because of these books? Not quite yet.

Excellent book, fun to use. Enabled this "artist", who has extremely limited skills, to draw pictures of animals that could be recognized as such by others :)

Another one of her fantastic books. This is a great buy.

Beautiful

for my granddaughter she loves to draw and she loved this book

Good value, a lot of pointers.

Love all the books by this artist. Easy-to-do, lovely drawings that are simple enough for elementary students to learn.

I bought this for my 8 year old as a stocking stuffer. He is more interested in video games than art & reading, so I purchased this to help get his creativity unlocked. As expected of an 8 year old, he gets frustrated when he doesn't do things well right away. However, this book really showed him that it's fun to try and there are different versions of perfect. I had a great time drawing these cute animals with him as well.
