Customer Reviews

This book is well laid out and packed with great exercises. Anyone who has studied...or is studying Italian as a second language knows the importance of being able to correctly conjugate each verb. I have purchased many other books dealing with verb tenses, sentence building, pronouns & prepositions, grammar, reading & comprehension, vocabulary etc., and this ranks at the top of the list. It would be a great addition to anyone's library.I gave this book 5 stars even though the "Free audio download" that was supposed to be included did not accompany it. This is not the first time it has happened when ordering from .

well done. Great retention tool. Thank you!
