There is little doubt that this book has been lovingly and intelligently edited. The images are revealing, most giving insight into the President that I had never known - and more importantly, they prove what a sincere, compassionate, dedicated man Obama is. If you want to know what Obama represents for the country, all you have to do is look through this book. Captions are strong, informative. The layout crisp and thrilling. The book? The book is history visited, revisited, remembered and celebrated.

Wife loved the book.

Great overall view of Obama's presidency. Great historical book. Our grand children will be learning about Obama with this book.

Excellent

Absolutely loved reading President Obama's speeches as well as the narrative about his presidency. The pictures were all fabulous.

i love it beautiful

Very good book recapping the Obama presidency. High quality photos and transcripts of some of President Obama's most memorable speeches help tell the story of this historic figure's time in office. With the quality and content of the book, you would think it would cost twice as much as it

does. This is a great addition to any Obama supporters' collection or anyone interested in this historic time in our nation.(BTW: A nice surprise is under the jacket of the book with President Obama's signature embossed into the front of the book)

Wonderful. I wish he was still president
