## Synopsis

This text covers both the theory and procedures related to the diagnosis and service of automotive suspension and steering systems, using a unique two-volume approach to optimize learning in both the classroom and the auto shop. The first volume (Classroom Manual) details the theory and application of suspension and steering systems, while the second (Shop Manual) covers real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date details, and abundant illustrations, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques--including hybrid and electric vehicles, tire plus sizing, and computer-controlled suspensions--the Sixth Edition also aligns with area A4 of the NATEF 2012 accreditation model, including job sheets correlated to specific AST and MAST tasks. Ideal for aspiring and active automotive professionals, TODAY'S TECHNICIAN: AUTOMOTIVE SUSPENSION & STEERING SYSTEMS, Sixth Edition, equips readers to confidently understand, diagnose, and repair suspension and steering systems in today's automobiles.

Expected the Classroom Manual & Shop Manual as stated in the name of the product but only recieved the shop manual. Please be specific if only one is being sold. Wasted more money on one book then I would have by buying both of them.

Expected both books classroom + shop manual as it says on description but only got one. Dissapointing. don't fall for it.

college

I needed to have these books immediately which is one good thing about downloading Ebooks. The other thing is my tablet goes with me anywhere so I can read my homework comfortably wherever I need to be. The biggest PRO was that it was 50% cheaper than the books from the school bookstore. so I could spend more on tools for class!

Good book, very in depth!

Good

Kindle version not available on fire phone? That literally makes no sense.this needs to be fixed IMMEDIATELY.
