Customer Reviews

Definitely not a professional, scholarly work. More of a fan project.

Absolutely love this book. Stephen King is one of my all-time favorite authors and yet I had no idea. I don't want to give anything away well worth reading

This book was great. Good biography and loved the list of books he has written.

A good biography - but I just wish it were a little more detailed. It is short.

I have been a Stephen King fan since I read "Carrie" for the first time. There was a lot of interesting trivia, most I never knew about. I appreciate and look forward to anything written about this icon. I would definitely recommend this to anyone that enjoys Mr. King's work. Kudos on a job well done.

All I wanted to do was correct all the mistakes in this book. While I enjoyed reading the facts about Stephen King, I almost felt like I couldn't trust these to be true due to the lack of attention paid to editing.

I'm an avid King fan, but this book(let), doesn't have anything really new to say about his life and works that can't be gleaned from the web.
