## Customer Reviews

When our daughter took piano lessons as a little girl this is the system she learned under. Now, as an adult, she is playing the piano again and she wanted to start over where she started before. She loves the books, 2, 3 and 4, and is back to playing very well again.

I grownup with yamaha, but I like suzuki more. This repertoire just take you straight in to the world of classical. Lot and lot of songs from great composers. It is not for self-study tho'

My daughter is studing on it. She is not really happy but I am pushing het!!!

My son's piano teacher recommend it. My son enjoy playing each piece and now working on the last piece. ;-) Great music selection.

I use this for my work as a piano teacher and it is a nice new international edition

Our piano teacher recommended Suzuki method when my kids started years ago, and we have been really happy with it.

This did not come with the CD! They were not clear at all in their product description that that would be the case. Very misleading and very disappointed. I thought I was purchasing the music book that comes with the CD.
