Customer Reviews

Fast shipping, great book, had disc as promised -- only wish it were available on Kindle. Studies funded by the Department of Justice show that 80% of custody cases that go to court have a "harmful outcome" -- I'm hoping to improve the odds for children in my area.

Great book and a must have if you are involved with the investigation of child abuse.

I prosecute child abuse cases. The book is a bit dated, so one will need to check current practices

and laws. Despite that, a great reference book and if you can get the CD, great forms for motions, directs, cross. If they come out with a new edition, I will buy.

This was a great text. It contains so much relevant information and is highly readable. It contains many examples, sample questions, and also individual state statutes in some sections. If this text is related to the field you hope to enter after graduating, you will want to keep this book for future reference.

Such a crucial topic, this guide lays things out succinctly and thoughtfully.

Great resource

I became very emotional taking the class that required this book.

I bought this book for class and it came in a matter of days to Afghanistan. I am very pleased!
