Customer Reviews

Ukraine is one of the places I really want to visit and after I read this guide I am certain that I have to bring this book with me when I go there. there are a lot of useful information written clearly in this book and I must say that this is the best book I have read so far. the author really presents it so well and I love it.

This is a short photocopied book with information such as "use Air BNB for best housing options". It is a basic internet search in book form.

Without a doubt the best travel guide to Ukraine available. The result is an extremely informative travel guide that anyone in Ukraine will find invaluable. A visitor to Ukraine might plan to stay in Ukraine for 10 days, or 2 weeks, but after reading this guide may also wish to visit the following year. This is an educational read, and a 5 star travel book.

Simple book, but right to the point.

Excellent Ukraine travel guide! The author invest a lot of time in researching this guide. It has far more information than I require for my intended visit. The book provides many restaurants and sites of interest in each area that I hope to explore, so I will be busy enough pursuing the featured locations. Worth recommending!

Only 38 pages long. Very few details. Mentions only 2 hotels, and does not include addresses or contact information for these hotels. Calling this a "travel guide" is misleading. On back cover it implies this book is better than "free Internet Kiev travel guides," but I've found much better information online. I will probably return this.

The information in this book is vague and was less than the hotel was able to provide; in addition, it has a lot of grammar errors.

Very little useful information. Also, Kyiv, Ukraine is not the "mother of all Russian cities"! It is the capital of an independent Ukraine fighting to keep its independence from Russia! A much better book is Ukraine: Europe's Best-Kept Secret by Maria Kachmar. It is available from for about the same price. Oleh Sajewych
