Shall We Dance: A Beginner's Guide To Ballroom Dancing

Synopsis

This book is written for the absolute beginner, not by a dance champion, but by someone who knows what a beginning dancer feels like and wants to know. The basics of ballroom dance are covered in a logical, easy to absorb manner that a beginner can feel comfortable with and see immediate progress. All the most popular ballroom dances are covered with enough steps to enable a complete novice to dance, without overwhelming the new student with technical jargon and ballroom snobbery.

Book Information

Paperback: 170 pages

Publisher: Ace of Hearts; First Paperback Edition edition (March 3, 2003)

Best Sellers Rank: #1,988,801 in Books (See Top 100 in Books) #41 in Books > Arts & Photography > Performing Arts > Dance > Ballroom #153298 in Books > Humor & Entertainment

Customer Reviews

Fantastic book! The footprints and explanations make it easy. -- Jane Beallt helps me remember the steps I learned in classes. Great tool for learning the basic steps and having fun. -- Bill Cartmill

I checked out a lot of books from the library and read the reviews for this book. This is the best book because it shows the actual foot positions. Most other books tell you to put your left foot here and right foot there, but this has the footprints on the pages. This book has helped a beginner like me a lot.

I knew nothing about ballroom dancing and I picked up this book. It is great! Everything is explained step by step. I love it!

I would welcome more pictures of dancing pairs, not only steps, but maybe you could see them better

on youTube :)

This is a very good basic book for someone wanting to learn Ballroom dancing.

Ordered the book 'Shall we Dance' to help me learn foot placement and other helps in ballroom dancing. It was just what I wanted.

This is very good for green beginners. You will soon outgrow it, but it will keep you busy for awhile. It has footstep diagrams, which I found very helpful. When you are ready for something a bit more challenging, check out my review for "Ballroom Dancing: Step-by-Step". My wife & I just completed beginning ballroom dancing classes, and have enrolled for intermediate. It is cheaper than marriage counseling, and more productive and enjoyable. You can't fight when you're concentrating on your dance steps!

Before I read this book, I was just a layman and not interested in it. And watching other people dancing round and round just made me feel dizzy, and I couldn't catch any move they did. But when I saw the footsteps printed on the pages, I suddenly found it not so difficult as I expected. It's much more enjoyable! Somebody says that simplicity stands arm in arm with wisdom, which I think appropriate to this book. It has given us a good dance lesson in the simplest way. I am eager to see the second book soon ...

I find it very helpful to have the basic steps outlined in this book. It helps me know what steps I need to practice. For visual learners, it's just what is needed. I looked all over the web for just such footstep outlines for the dances, and this book is very clearly written and explained.
