The Complete Grimm Chronicles (The Grimm Chronicles Box Set)

Synopsis

This is the COMPLETE collection of the award-winning Young Adult adventure series! 200 years ago, the Brothers Grimm unleashed their stories upon the world. With the stroke of a magic pen and a deal with a malevolent force of evil, they forever changed humanity's fate. Now the characters of the Grimms' fairy tales walk among us. With every day that passes, they grow more evil. They are the Corrupted, and only a hero can stop them. This is the story of Alice Goodenough, the last in a long line of heroes who have bravely given their lives to snuff out the evil force that does not belong in this planet. Her story begins during summer vacation, when she happens upon a magic pen and an invisible rabbit named Br'er who is tasked with teaching her the ways of the hero. With the help of the magic pen, Alice must vanquish the terrible creations of the Brothers Grimm, relying on her dreams to guide her to her next target. Cinderella. Fundevogel. A fisherman. An evil wizard. A trio of dwarves hellbent on controlling the world. But to become a great hero, Alice must give up her old life so that she may protect those she loves most. Otherwise, evil will find her. And evil will kill her. Customer Reviews

I bought this b/c it was 12 books for a great price. I like ready YA novels, especially when I'm at work b/c it's easier to follow there. I wasn't sure what my expectations were for this series but I loved the first book. I finished the first book in 2 days and have already started on the 2nd. I had to take a break from reading that b/c school started up again and I have a lot of reading I have to do for class. But as soon as this class is over and I have my break I will resume the series.

a great story keeps you sucked in all the way. I recommend to anybody who loves to read fiction.

This set was great, I had no problem reading it straight through without getting bored. I really loved all the characters and their development through the stories.

Well worth the price & the time to read it. A new twist on the Grimm stories. Very riveting.

I love stories full of twist and turns especially when the author manages to take tales that we thought we knew and turn them into a fun ride that leaves the reader looking for more so that the fun never ends.

I liked this series. I didn't love it, but I did like it. I finished it all. I do think it ended a bit abruptly. I would have liked a bit more denouement. There was an epilogue, which was nice, but still didn't wrap things up as completely as I'd have liked.

What a great series! I loved hearing about all of the Grimm tales and what they turned into after time. Very creative and a great read

Long read, but worth the time. Liked this twist on the Grimm theme.
