Stranger Than Fiction: True Stories Of The Paranormal

Synopsis

“Forget the world that you know. You are about to enter a dimension of the bizarre, where the strange and unusual will guide you down the path of imagination. True stories where the ordinary will be replaced with the fantastic! Explore legend, myth, and folklore. These cases are based on theory and conjecture. The reader is invited to make their own conclusions on all the available information. Stranger Than Fiction: True Stories of the Paranormal.”

Customer Reviews

If you're new to the study of the paranormal, you may enjoy this book. There's nothing new or exciting here for someone who has even the most basic background in the field. It's a decent read, but that's about the extent of it. I would have given it three stars except for a quirk that irritated me, and that was the author's (or the author's word processor's) constant use of italics. Words are italicized for no apparent reason, and it's like hitting a speed bump in the middle of a sentence. That's enough to cost the book a star.

The author states that these stories are cases that might have a supernatural explanation. These

cases will also be familiar to you if you read a lot of "true paranormal." I think the fact that I enjoyed the book was because there were not many errors in grammar, spelling, etc. that are so annoying in some free and kindle limited books. The author states that he is thinking of writing a second book in the series. I am looking forward to reading it. I always like a fresh take even on the stories with which I am familiar. Give this book a chance even if you are a prolific paranormal reader. You might like his style.
