Learn To Trade Momentum Stocks: Make Money With Trend Following

Synopsis

Ever wished you could find the next Apple or Tesla? Have you ever stood on the sidelines and watched a stock rocket higher? Have you ever bought a stock near its high, only to watch it plummet over the next 12 months, wiping out your trading account? If so, this book is for you. You will learn a powerful strategy for trading momentum stocks: trend following. You will learn exactly when to buy a stock, when to take profits, and when to exit a losing trade. Even if you know nothing at all about trading stocks, this guide will quickly bring you up to speed. "Learn to Trade Momentum Stocks" will teach you everything you need to know to profit from momentum stocks-- and to avoid getting wiped out. And if you ever get stuck, you can always reach out to me by email (provided inside the book), and I will help you. Ready to get started? Scroll to the top of the page and select the "Buy Now" button.

Customer Reviews

very usefull, very well explained.

This book is simple to understand and straight. Worth to read for those that are starting in the stock market.

The book is okay. It's like reading a novel but some of the pages are missing so you don't get the full story.

The author, again, does an excellent job simplifying his trading theories. There are plenty of examples, references, and tools provided through out the book that prove useful! I look forward to many more books

This book uses the standard two moving average cross over technique with a new twist that should make the strategy more profitable. A good read as are his other books.

This is a great book on how to trade and make money. It can be used by the novice to the experienced investor.

Good Book. Very easy to read and simply put into easy to understand language. Instead of all the mumbo jumbo in other books.

Written well and pretty easy to follow. Very good place to start.
