Grade Level: 3 - 7

Customer Reviews

Our kids really love this book, and I liked it too! Ripley's is always interesting and this kept with their heritage, although it did not have some of the weird stuff that I remember in the books when I was a kid. Many stories were inspiring and featured kids doing amazing things. There were several great stories about unique sport, abilities and some cool inventions including Zollipop which was created kids. There were fun quizzes at end of each chapter. Photography and quality of book was great too.

Great photos and short interesting articles about all sorts of fun topics around the world. Great for young school aged children. My 6 year old son enjoys this book.

Bought this as a gift for a 12 year old and so far he loves it.

Bought this as a Christmas present for a 12 yr old. I think he'll like it. It is colorful, has lots of interesting articles, and is a large format so it is easy to read.

This book was a great read for my 5th grade daughter and my son in kindergarten! We would read a little each day together, and then my son would sit with my daughter and read some more! We all love to look at the vibrant pictures in the book. I highly recommend this as a recreational read for anyone who enjoys some interesting and zany facts!

Purchased 3 for the grand-children. A yearly hit! The parents enjoy them too. These type books are magnets to the kids. They love the short paragraphs and interesting facts. If you have a child that isn't into books, these books are a great way to get them reading. I've purchased a library of these type books for each of my children and now for my grand-children. They read them over and over again. Mary In Florida

My nieces and nephews enjoyed this book. They love any weird fun facts.

Great book for my 8 year old son. He loves it and book was in great shape when it arrived on time.
