Customer Reviews

I most likely will be unable for reimbursement since this book was purchased June 2012. I bought course books for the upcoming school year. The course for this particular book started mid February. It wasn't discovered until a few days ago that it is missing pages 79-110, inclusive. What should be page 79 starts as page 111 and carries through to page 142... where it repeats page 111 and finishes appropriately to the end. I had presumed the book to be complete and without errors. My advice for anyone purchasing new/used books for school: Make sure the material IS complete and without misprints or other errors. I would not put this book up for resale, but know it will go to be recycled for the paper content.

I'm sure this will work fine, it's definitely used and shows wear but it is still usable and saved me

some \$\$\$.

We were happy to find text books at when our private schol wasn't exactly upfront about other sources for required text. I gave only 4 stars since I have not read it myself.

Gained some knowledge to subjects I did not know to much about.

Very satisfied

Helped me a lot in my health class.

This was our first experience ordering textbooks and I was hesitant to order used books. However, I was very happy with the condition of this book. Happy we didn't waste money on the new book.

just as described, PROMPT service!
