Grade 8 Up • In this practical and lively self-help title, the author argues that teens have six key decisions to make, and that their choices will make or break their futures. The decisions involve

getting a good education, choosing true friends, getting along with parents, dating and sex, avoiding addictions, and establishing a healthy sense of self-worth. Covey provides tips for making and following through on each of these areas and delivers concise sound bites of advice peppered with colorful graphics, cartoons, and movie quotes. He supports his arguments with facts, statistics, and analysis. For example, in urging teens to stay in school and keep up their grades, he provides a chart of lifelong earnings based on the highest degree earned, as well as the money needed for a family. The author briefly addresses problems associated with the choices. For example, regarding school, he gives tips on dealing with stress, time management, learning disabilities, and preparing for college. He is frank in discussing sex and dating myths and the dangers of STDs and teenage pregnancy. This book covers typical self-help territory, but does so in a manner that teens will appreciate. Its downfall is its wide scope and the author's failure to cite most of his sources. However, the volume is not designed to be read straight through, and its quick and easy tips will appeal to most readers.

Love it! Wish I could get a class set of 36 of them. Such an important book for teens. So glad that I found it. Every parent or teacher should have a copy.

Our students have enjoyed this workbook material!

Plan to use this with my high school students.

This book is filled with great information EVERY TEEN should know! It makes a great gift for a young teen!

Great!

Daughter ate it up, and loved it. I was really surprised to see it's really close to what I've been telling her, so the validation is back up, and it doesn't get better than that.

My mother bought her 4 teenaged grandchildren this book for the holidays. I think this is the best book I've ever read. The best gift my child has ever received. Most of the parents spent those first days reading it and asking "Where was this when we were teenagers"!! Now, I notice all of the children sitting around reading the book! It is Wonderful!!! My daughter loves it and can relate. I am so in love with this book that I am purchasing it as gifts for her friends. Thank you. We love this wonderful book!

Excellent advice for teens!
