This coloring book was nothing like I was expecting from the picture on the front cover. I was expecting pictures of "cute rabbits" sitting in flowers and other scenery you would expect to find "cute rabbits".The picture on the front cover Isn’t even in the book.The quality of the paper was OK. I colored a page with gel pens to try it out and they did not bleed through to the picture over on the other page. They are printed on only one side of the page. I found about 6 of the pictures that I thought were " cute rabbits". A few of the pictures are really blurry. They look like they were printed off the computer and put in the book and the printer was junk and the pictures got all blurry. One of the pictures is just a close up of one of the other pictures head, which would not be so bad if there wasn’t only 19 pictures. With that few, there shouldn’t be any repeats. There is also a few of the pictures of "cute rabbits" that look like they were photo copied out of a children’s Easter Bunny coloring book. I bought an adult coloring book today at my local dollar store that was way cuter than this "cute rabbits" one for only $1.00. If I saw this book in a store I definitely would have put it back on the shelf. I guess I am just really disappointed. I was really looking forward to getting this coloring book and it just isn’t what I expected. I will color all the pages because I use all the coloring books

and pages I don’ t like to practice shading and/or to challenge myself to see how pretty I can get an ugly picture.
