Synopsis

A fresh lifehack collection for 2017! This techie lifehack bible was prepped and delivered to you by a proper technology geek. A life hack is a simple trick that you can use to make something easier for you. When it comes to electronics, this ranges from key commands and short-cuts to settings you may not know about. Though life hacks aren't exclusive to electronics! There are millions out there, for everything you can think of. The more, the better. The more you know, the easier certain activities will get for you. Here, we're focusing on the electronic life hacks for things you use every day. These life hacks are all about getting the most out of your time by using these tricks. You'll notice a spike in your productivity once you've read through these awesome life hacks. You'll notice better time management and that you can accomplish tasks more quickly. That's what life hacks are all about: helping you to help yourself. In this guide, you'll find life hacks for the most common programs. We covered life hacks for Skype users and Gmail productivity. We cover add-ons and extensions for Firefox and Chrome that will help you get the most out of your browser. We cover tips and tricks for using your operating system (Apple and Microsoft only). You'll also find awesome tips for the apps you know and love, like Spotify. You'll see life hacks geared at marketing through social media. Plus, social media life hacks for Twitter, Facebook and even Instagram. All this, plus suggestions on how to get the most out of your office space. This guide even includes tips to help improve your writing skills and bonus websites that will help you drastically in the future! No matter what you're looking for you can probably find it right here! This is one of the most detailed life hack lists on the Internet. Compiled from other internet users, like yourself. People who needed solutions and came up with them. They have shared their solutions and we're passing that information on. Of course, this guide also includes a few life hacks you won't find anywhere else! This guide has been organized in sections, so you can easily find what you're looking for. You can read through from start to finish, or skim to find a relevant subject. You can also use the "Find" tool to quickly search for the word you're looking for. A helpful trick is that on most systems, you can press Control + F to bring up the search bar! This works in text readers and even on web browsers! There's your first life hack! Read through the guide for more awesome information about technology and what you can do with it!

Customer Reviews

To the point! Anna has condensed the experience of a tech genius into everyday life hacks. Name your social media and you'll find a hack for it here. I applied one of them (getting emails from LinkedIn) in the first 20 minutes of reading the book!

I am a mom of three young ones and honestly am always trying to get more time in the day. So I jumped on this book when I saw it. I loved that it was not only technology hacks but time/space management hacks. I did know a few of the hacks but I was very impressed with how many I didn't know and how easy they were to incorporate into my day to day life.

I love the way it is broken down simply into groups of 5 hacks for each topic; they are simple and easy to follow and implement. Lots of different areas--from writing skills to Facebook to Google Chrome, on and on. You're sure to find something of use in this great little book!

99 Techie Lifehacks is a life saver. I'm not a tech guru but I thought I'm pretty good at technology until I laid my hands on this book and I can't believe what I was missing. This book is a must have for anyone who has access to the internet. It will equip you with skills that will help you maneuver the interweb and

maximize its great potential. After reading this book, I now look the interweb in a different light. Enough said. Grab you copy and be enlightened.

I like the fact that all information was concise and broken down into the different applications. The only thing missing was the How To step to assist someone from point A to B. I consider myself a Geekette after working in IT for 30 years and all the hacks are good but there are a few that just need a little more information.

All of the hacks in here are very useful. There was a few I knew of before but a lot of them I had to try out myself.

God job!
