Doug Shidell has been riding bikes and writing about them since 1970. He has published six touring books about Minnesota and Wisconsin, written numerous newspaper and magazine articles and spoken extensively about bicycle touring and commuting.

Awesome guide for planning a day or weekend bike centric trip. We based on a weekend away along the new 13 mile Gitchi Gami bike trail based on this book (Splitrock, Gooseberry falls etc.) We also spent the day riding from Hopkins, to Excelsior and on to Victoria on the light rail trail because

of this book. It provides some food and shopping options along the way. It has great maps and lets you know of the trail conditions and surface type. It really brings together a lot of hard to research extended bike trail info into one well researched book. I think the author Doug Shidell personally researched most trails and points of interest.[...]

Excellent

I highly recommend this book. I had the same previously published book and like it so well, I ordered this updated version.

Sharp maps, all of them are four color. The authors even included maps of the towns along the trail. Nice for finding trail heads and local parks. They included a lot of tourist type information like lodging, camping, local festivals and events and other activities for when you aren't on the bike. The road loops are a nice touch. Ride one way on the trail, then return on a road.
