Customer Reviews

Very disappointed in the quality of the print. It's obviously been photocopied multiple times over and is blurry on some pages and hard to read. The black blots make it even worse. Embarrassed to give as the gift I bought it for.

Mostly off-topic, choosing meats, spices, sauces. Not much to do with Masterbuilt smokers. I got the Kindle version, pictures are smaller than a pinky nail. Too small to even guess what the picture is. Waste of time & money!

I was excited for the book and it gives a lot of information for someone just starting to use a smoker electric or not. But this could have been proof read much better some recipes are missing information for example there is a ? In a box where the amount of ingredient should be on several recipes so I ended up just finding them online anyways the only thing I have really used this for is ideas

Lots of good info in this book. I will definitely be trying my hand at the cold smoking again, lots of dry rubs and sauces.

It's a cookbook. Hard to rate other people's Smoking choices. We've enjoyed it

I have learned good recipes. It a good tool for smoking.

Has helped with learning to use our new smoker.

Looks like it was copied on a home copy machine in black and white. Can't even make out what pictures are of. The recipes might be good but why even put pictures in black and white that you can't see the food. Definitely not worth the price. I just found the book on Barnes and Noble for \$13 even that is too much for this book
