Customer Reviews

I have recently purchased an Instant Pot and I was so confused with so many different recipes available, not knowing how to use the Instant Pot properly and effectively. My first few attempts on my own before getting the cookbook did not quite deliver desirable results. After exploring around and gotten this book, I tried a few more times with the recipes in this book. Wow, I am amazed by my own cooking! The easy to understand clear cooking instructions and incredible recipes make fabulous tasty dishes with such ease. I am really happy with this book!

This is a straightforward cookbook. I have encountered a lot of positive feedbacks on using a pressure cooker when cooking and they recommended that I should try it too! When I bought my first pressure cooker, it has a digital copy of easy to follow recipes that can be done also by my kids. It is easy to use because it has a step by step procedures that are inside in it. Making meals inside the house is cheaper than buying food from fast food chains.

Used several times. Decent reductions in other recipes for larger quantities. Mostly using online recipes these days until a really highly rated and very specific cookbook for Instant Pot is released. There are many want to be Instant Pot cookbooks that are modifications or adaptations of existing books. We all need to really examine and report on the best.

The best cookbook I ever had for giving me over 201 recipes to choose from. Instant pot cooking really easy and more relaxing than the other way of cooking because all you have to do is prepare all your ingredients put them all together and wait for some time to have your delicious and healthy meal that surely will enjoy by the rest of your family.

From quite a while people are looking for having fitting and recognizing manual which present the most effortless terms and approach of making new dishes. At that point moment pot cook book has presented such terms and procedures and straightforward formulas which has fathomed cooking issue. This is a suitable manual for everybody.

The first 10-15 recipes are just variations on oatmeal? raisin, blueberry, maple, etc, and so on with

every other kind of recipe. If they add or take away one ingredient from something, it is a whole new recipe. Naturally this doesn't apply to every single recipe, and this isn't meant to sound trivial, but I do believe it is truly misleading to tout 201 recipes.

Perfect book. I purchased this book so I can enjoy quick and easy recipes. This book will make you realize how easy instant pot cooking is. These instant pot recipes are varied and have detailed instructions, making them easy to make for even a novice cook.

I bought this for my daughter, but I give it five stars because she's used it to make many dishes with her Instant Pot and raves about how good each dish is. I liked it especially because I have an Instant Pot. Instructions are specific to that, but also include adaptations.
