Customer Reviews

I recently purchased some of the Playmobil licensed Ghostbusters toy sets for my grandson and wanted to give him a book to help explain the story. He's definitely a little young for the movie but this book tells the story in a way that is acceptable for a younger child. The story in this Little Golden Book is based on the original version of Ghostbusters and not the more recent remake of it. The characters are all the ones that I hoped would be included. The illustrations by Alan Batson are great as well as the condensed storyline by John Sazaklis. He enjoys having me read him the story and then we play with the sets. He has even asked for the story book as his before nap book because he enjoys it so much. The book is great on its own and it adds a lot of fun to other Ghostbusters play time.

Loved it , my 4 yr old loved his new book! Thank you soooooooooo much!

My grandson loves the Ghostbusters. I at first just downloaded the sample of this book, but it stopped short of showing the Marshmallow Man, which is favorite part. He screams with joy when he turns the page and his favorite villain appears. Worth every penny!

The illustrations are cool. The story could have been done a little better, but it is age appropriate and readable for kids about 1st/2nd grade. I love Little Golden Books. My son loves Ghostbusters and likes this book.

Little Golden Books have been a favorite for as long as I can remember! This one is a particular favorite because of the much loved Ghostbusters theme! I couldn't be more pleased to see a book so treasured by a little one! He's not afraid of no ghosts! Why? Because he takes his Ghostbusters book to bed with him every single night! Love the color pictures and story details!

Fun little kids book. I watched Ghostbusters as a kid, now my kids love it too. Only the original. The new one is pretty terrible. The book arrived in good condition and is very short. You can read this whole book in a matter of minutes. Great for a couple of dollars.

Cute book for my Ghostbusters-loving 5 year old son. Great illustrations and sums up the kids favorite parts of the movie. I accidentally bought two books and kept them both to keep one at his Grandparents house. Another classic "Little Golden book" to add to our collection! I've had the book for a little under a week and have been asked to read it to him every night since.

i have started a collection of little golden books from Disney for my toddler and sometimes i let her look through and see which one she would like best. she picked this one and i was so happy because i loved the ghostbuster movies as a kid! but i was a little disappointed when i read the book with her because it didnt have the part about the statue of liberty in in and i thought that was so cool. but it is a quality book and very well illustrated. for the most part the story is great
