Funny, educational book and the "butt" reference was perfect for the pre-schooler we gifted. The mother says "the butt book" it is a nightly must-read, one of the few books that dad enjoys just as much. Perfect for parents wanting to share their love of wildlife with little ones.

My kids love this book. Also, it gives them more reasons to use the word "butt" around strangers. An additional aside, many people do not know what Pronghorn Antelope is, especially adults. My kids are now educating adults on Pronghorn posteriors and so forth.

So, the 5-yr old and 8-yr old boys that I gifted these to LOVED them. Both had to read them that night in their respective homes!

My 6 year old granddaughter loves to say the word BUTT! So, I couldn't resist this book. Very entertaining and we will look for other books by this author.

I seen this book in Gatlinburg while visiting friends and thought it was adorable! As a thank you for our friends hospitality we shipped them a care package that includes this book for their grandsons!

Grandkids love it!

I have a 5-year-old son and this is perfect for him. He loves that mom is legitimately saying "butt" over and over. It's a boy thing! On two pages, it describes the butt and shows a picture of the butt. On the next two pages, it shows a full picture of the animal and gives a few fun facts about that animal. The photography is great. And the facts are at a level that kids understand them. I also like that these are animals that my son recognizes from where we are in Michigan.

Perfect i can't say more!!!!
