If you're debating whether or not to buy this...BUY IT! It is a combination of hilarious, yet utterly cute little designs and the most creative cuss words and phrases you will ever see. Where there is a cute little donkey or a cute little panda, will come a slew of hilarity! A+ design!! - Ana Barnes
My brother got this for me-so great! The animals are so cute and the words are hilarious! The drawing is really nice, just a hilarious awesome book! - Elizabeth H

I love this coloring book. It isn't as intimidating as some of the more detailed coloring books I've tried, and it is absolutely hilarious. The animals are super cute- especially with their "big mouths". Can't wait to put them up on my fridge!

This book cover popped up on a Facebook group online, and I immediately knew I had to have it. I watched and waited for it to be released to , then I snatched it up (as soon as payday came, lol). This coloring book is PERFECT for adults who are intimidated by the "adult coloring books" with intricate patterns and fine lines. Nothing against that style of coloring book, of course, I have some myself... but sometimes you just want to bust out a children's coloring book because you don't feel like squinting! This is great, because while being overly cutesy, they're definitely not for children. You get a laugh out of each page. These critters are perfectly foul, lighthearted enough to be phrases that you could hear on an everyday basis (around the right kind of company of course). There are even two pages of Color Test Squares in the back, which is actually really neat. I can't count how many times I've started coloring and regretted my color choice because that's not the color that shows up. I haven't colored in the book yet, but I'm definitely excited... Yo-Ho Yo-Ho, it's off to color I go!

Perfect for destressing after one of "those" days at work. The critters aren't too complicated and the incongruity of the foul language makes me smile. Pages are heavy enough that markers don't bleed through, but not so smooth that colored pencils don't grab.

I've gotten a few of these adult coloring books for myself as well as for gifts for friends, and this is my favorite one so far. The combination of the cute critters and the (sometimes really) nasty words is the perfect combination of nice and naughty, and so much fun to color. I realize that some people will probably be offended by things like this, and they would be wise to look elsewhere. For the rest of us, this is comedy gold. These adult coloring books, along with a pack of glitter gel pens, make a great inexpensive gift for like-minded individuals. I like to keep a few of these kinds of coloring books and glitter gel pen sets around for last-minute gifts. You can't beat it for around ten dollars for both, and has a great selection.

Hilarious!! I laughed my butt off! Bought this for my friend who will need the outlet when her estranged husband moves back home!!!

My all time favorite coloring book!! The pictures are adorable and funny. Only complaint is the paper quality. You have to put something behind the page if you're using markers because it will bleed through onto the next page

I love this book! The cute critters with curse words make it that much better! I like that the details aren't too intricate so it doesn't get too time consuming but it's still fun to color. Plus the author rocks!
