Customer Reviews

Stacey Printz

This is just one handy little book of really good basic recipes and some awesome surprises. This is great to keep in a drawer in the kitchen right under cabinets in which you keep ingredients for making salad dressings...it make it fast and easy to whip up home-made salad dressings. Would make a very thoughtful gift!

The book is really small, there are no pictures, and alot of the recipes seem to repeat themselves.

A good beginner salad dressing book with a decent variety of relatively easy and tasty recipes. Save yourself some bucks and make your own fresh salad dressing where you will know the ingredients. Most of the commercial salad dressings contain high-fructose corn syrup, which is a killer.

This is a good recipe book for people who are new to making their own salad dressings. With that said, I've been making my own salad dressings for a while. So if you're looking to just start out making your own dressings, this would be a good book to start with, but if you're looking for more advanced or more interesting recipes I would check out other sources. However, for being more experienced I did find a few interesting recipes I hadn't thought of before.

very good quality

Exactly what I was looking for. It delivers just what it promises - a whole bunch of salad dressing that are easily made at home.

This was a nice little book - and it is really little. I ordered it with some other items and almost did not see it in the box (it was under the invoice). It would be nice if it were a little bigger or had a little more content - but it does what it says - it give you 50 salad dressing recipes.

I was disappointed in the size of the publication. Sometimes smaller is better, but not in this case. Recipes are OK, somewhat common. I was in a Cooking Mode when looking for recipe books, so think I made this decision in too much of a hurry.
