Sticker Early Learning: Numbers

Synopsis

Children will love learning numbers and counting as they find the stickers and complete the puzzles in this early learning activity book. The 100 photographic stickers inside are reusable so that pre-schoolers can enjoy play-and-learn number fun, time and time again!

Customer Reviews

Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful nonfiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

Pages are really sturdy. Feel laminated. Learning material is stimulating even for a child not within the ages it was meant for. My almost two year old loves the bright pictures and the reusable stickers.

4 year old really like the book...I like that the stickers adhere and release maybe 3 times before adhesive doesn't work.

awesome, great quality

Great book, purchases for a road trip - my kids loved it!

Stickers aren't durable. Otherwise for learning purposes it is fun for kids.

Excellent learning tool for toddlers.

This is a great book for numbers. My 3 year old and I had a lot of fun together doing this book in an airport waiting for our plane. She can't read numerals so this is really above her. I would say great for 4 or 5. The addition problems are something to take into consideration. Those I didn't even attempt with my 3 year old, but the rest of the book we did just fine. 3 or 4 year old this can be done with help. 5 or 6 for independent work. The stickers re-stick well.

My two year old daughter loves it. It is a fun way to learn her numbers and colors.
