Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This book has a wonderful blend of blues and jazz and includes some of the more well known tunes of the era. The play along CD is very easy to follow and has a great back-up sound. I rate the level of difficulty as 3 to 4 due to rhythm syncopations. Very good book for someone wanting to expand their repertoire to include different music styles.

The sheet music book is very good, notation is clear and the chord symbols are there for improvisation using the recorded tracks. The so-called "flute" solo lines are actually vibraphone solos. Not a real problem, since the flute and vibes are in the same range for these tunes, but students won't hear what a good flute player sounds like playing these tunes. Lessens the value of this disc, hence the 4 star rating. Another weird thing: there are A and Bb tuning notes recorded on the disc, but NO C tuning note recorded. Weird, since the flute is a key of C instrument.
