crap it out

My daughter needed a little encouragement to keep practicing piano, and her teacher recommended this book for her- popular songs that she can learn (and play along with on iTunes). Great incentive.

My students enjoy this book. It has a decent variety of songs but i'm not sure why some of the songs are included in a children's book (She Loves You etc.) It's pretty good quality as far as the arrangements go, but Faber books do tend to over simplify and lose some of the integrity of the songs. I often modify them to better serve my students. But is probably the best currently on the market.

Speedy shippingAwesome book

My son love to play these songs. I used to have to constantly remind him to practice piano but with these books, he goes to the piano by himself.

My niece wasn't in to practicing her lesson, but now is much more interested since she play some familiar songs. Thanks!

My twin granddaughters love this book!

This book is a fantastic supplement to the Level 2B lesson books. I am a music teacher and find the books has lots of songs that the kids love.
