Maya Mackowiak Elson is writer and editor whose work has been published in all kinds of places. These days she's mostly writing stories for young people. She lives in Brooklyn, NY with her husband and two spirited sons.

My three year old, Willy loves the Rescue bot series. These books are a perfect fit for him. He loves them and it gives another way to give him his rescue bot fix with turning on a show! He asks for these every night since they arrived. I would highly recommend them for young children. As he ages he will be able to read these on his own as well because the books are written for early readers. I believe these will be a favorite for a few years in our house.

Kids big and small love rescue bot everything. Don't try and deny it, just buy it all :) My 3 year old son and 9 year old daughter and every other kid that comes to my house, love this book and everything else sold for this stuff. All good quality!

Read almost every night

Kiddo loves the book. Great quality and shipped fast. Just wish they made more books with different story lines that didn't follow the shows.

My son loves Rescue Bots and I love that these books are away enough for him to understand. We read these books every night.

My son is a big Rescue Bots fan and this book was a big hit! It is adapted from an episode and is a little boring for me, but he loves the characters so he loves it.

Cute story

Read this book to my son almost every night. My nephew loves rescue bots and now he gets to enjoy them!
