# Digital Tradition: Arrangement And Labor In Istanbul's Recording Studio Culture

## Synopsis

Istanbul is home to a multimillion dollar transnational music industry, which every year produces thousands of digital music recordings, including widely distributed film and television show soundtracks. Today, this centralized industry is responding to a growing global demand for Turkish, Kurdish, and other Anatolian ethnic language productions, and every year, many of its top-selling records incorporate elaborately orchestrated arrangements of rural folksongs. What accounts for the continuing demand for traditional music in local and diasporic markets? How is tradition produced in twenty-first century digital recording studios, and is there a "digital aesthetics" to contemporary recordings of traditional music? In *Digital Traditions: Arrangement and Labor in Istanbul's Recording Studio Culture*, author Eliot Bates answers these questions and more with a case study into the contemporary practices of recording traditional music in Istanbul. Bates provides an ethnography of Turkish recording studios, of arrangers and engineers, studio musicianship and digital audio workstation kinesthetics. *Digital Traditions* investigates the moments when tradition is arranged, and how arrangement is simultaneously a set of technological capabilities, limitations and choices: a form of musical practice that desocializes the ensemble and generates an extended network of social relations, resulting in aesthetic art objects that come to be associated with a range of affective and symbolic meanings. Rich with visual analysis and drawing on Science & Technology Studies theories and methods, *Digital Traditions* sets a new standard for the study of recorded music. Scholars and general readers of ethnomusicology, Middle Eastern studies, folklore and science and technology studies are sure to find *Digital Traditions* an essential addition to their library.

## Book Information

Paperback: 344 pages

Publisher: Oxford University Press; 1 edition (June 29, 2016)

Language: English

ISBN-10: 0190215747

ISBN-13: 978-0190215743

Product Dimensions: 9.2 x 0.8 x 6.1 inches

Shipping Weight: 1.5 pounds (View shipping rates and policies)

## Customer Reviews

"In Eliot Bates's ethnographic Digital Tradition, he explores folk and traditional Turkish, Kurdish, and Laz music as it is recorded and distributed with 21st century digital recording technology and within modern markets...Additionally, through numerous cases and examples, he illustrates how recorded music affects identity, linguistic, and political factors in Turkish society...Bates completes the musically stimulating experiences described in his book by supplementing it with a website that offers audio and visual examples of concepts, artists, studios, and works that are mentioned in the book."--The Middle East Journal

Dr. Eliot Bates is a scholar whose work focuses on the creative use of digital music technologies and the growth of hybrid digital music economies. An ethnomusicologist by training, he has conducted over three years of field research in Turkey, and is the author of *Music in Turkey: Experiencing Music, Expressing Culture* (OUP, 2011) and articles on musical instruments, aesthetics, studio architecture, and the emergence of an industry for Anatolian minority language popular musics. Eliot is a Lecturer in Ethnomusicology and Popular Music Studies at the University of Birmingham (UK). In addition to his scholarly interests, since 1994 Eliot has been a performer and recording artist on the oud, most recently (with organist Baby Dee) recording and performing as The Big Bumble Bees.
