Son Of Kong (Sons Of Beasts Book 2)

Synopsis

Torren Taylor has a gorilla problem. The birthmark on his back says he is supposed to be the new Kong, but he wants nothing to do with his people. Shunning their traditions means his silverback is out of control and on a one-way track to crazy-town. He accepted his shortened life a long time ago, but right now all he wants to do is live long enough to for a couple last bucket list items. When a rare beauty shows up at his door and offers to keep his animal steady for two hundred bucks a week, well, he's mighty tempted to pay to prolong his life. Especially if it means spending time with Candace, who seems to have a knack for calming dominant men. She's a good girl gone bad, and he wants to corrupt her even further. But something's brewing against his crew, and drawing her in closer will put her at risk. And now Torren is torn on one important decision: be selfish and live longer, or shorten Candace's life with the danger building around the Sons of Beasts. Candace Sumner needs a change. She's back in Foxburg paying off big debts and taking desperate measures to do so. She had to give up her dreams to come back to her hometown, and now she wants a break from the monotony. And maybe a friend or two wouldn't hurt either. An offer to keep a local silverback shifter steady sounds like an adventure, but when she sees Torren for the first time, her plans at aloofness are squashed. He is the type of man who is the perfect combination of sweet and deadly that could finally make her feel safe in her life. Too bad he's going crazy, and his crew could go down in flames at any second. Candace wanted an adventure, but she didn't bargain for love, betrayal, and a group of the worst-best friends a shifter like her could ask for. Content Warning: Explicit love scenes, naughty language, and piles of sexy shifter secrets. Intended for mature audiences.

As the characters development in this continuing storyline from the Beasts SERIES is just going to thoroughly grab your heart and brings smiles to your faces. As the bio to this addition tells us about the main characters and their start, reading about how things go is a ABSOLUTELY FANTASTIC ADVENTURE!! SOOOOO DON'T MISS OUT ON ANY OF THEM BECAUSE THEY ARE GOING TO BE A WONDERFUL TIME

[illegible]

The line of Kong will not be happy in an all gorilla family group. To keep him steady Torren has to fight and needs a reason (aside from Vyr) to steady him. The crew is partially doing it but he needs a mate and a dancer will do the trick. I like that he accepted her work and wasn't trying to make her stop or change. They both were accepting of each other and had a plan for their lives that included their current jobs but had hoped of better. Nevada and Clinton will still be my favorite couple for the Sons of Beasts but I like Torren and Cadence* as well.

OH. MY. WORD!!!! LOVED it! I couldn't stop reading! I read it in about an hour and a half. So intense and so thrilling to read an amazing story. I love T.S. Joyce books anyway. I wait with baited breath every morning hoping today will be the day that another wonderful story is available to read. On the one hand I love that she publishes every month (pretty much). A lot of authors only publish

one or twice a year which leaves me frustrated and slightly depressed while waiting for another awesome story. With T.S. Joyce I only have to wait a month, sometimes not even that. Now that I'm done reading it, I'm sad that I have to wait a whole month to find out who and what is the mate for Veyr. I can't wait!!!

I expected nothing less than the best. This book made laugh and then get angry. I so love Torran, he reminds me of his dad but not. While Kong was on control Torran's lack of control, but big heart makes you love him. While he thinks he's lost it takes true love to prove him wrong. It's not only the love of a woman, but his crew that's his saving grace. I totally recommend this book.

Woah!! This crew might be competing for favorite with the Blackwings and that's saying something from me. This author has always done a fantastic job of telling stories of owning who you are and fierce, loyal, fire blazing love, but Sons of Beasts gives me chills. Torran and Candace are both in bad chapters of their lives but together... Seriously loved this book and finished it in like 3 hours.

Well done! I loved every minute of it! Can't wait for the next book. I love this crew. They are goofy and sweet. I love the strength of Candice. Torren sees no future. Until he lets Candice in and figures out that love is worth living for. Sigh. I guess I will have to re-read this whole series till Vyr's book comes out. His is the bomb and I can't wait to see what T S Joyce writes for Vyr!!

Wow... Every book I read, I always think "idk how she could ever out do this one" AND THEN SHE DOES! Y'all TS Joyce has done it AGAIN! Utterly amazing. The way she makes her characters so relatable and deep! She makes you know you're not alone! It's like every story, she's telling you "Don't give up!" "Keep fighting!" "Things will always get better!" I'm blown away by this series of misfits and cannot wait to see what comes next, but bitterly dread the end.

I cannot believe that each boom TS releases is just as amazing as the last and fully believe that each book she writes during her career will be just as wonderful. Torren and Candace's story was full of hardships and triumphs but as always love and crew bring the story together. This book is ten plus stars in my opinion. Now, impatiently waiting for the next story in Son's of Beast.
