Synopsis

The authors have updated the popular casebook with new cases and materials that capture rapid changes in child advocacy and juvenile justice. The book continues its interdisciplinary emphasis, practical approach, and in-depth coverage of lawyering, child abuse and neglect, foster care, adoption, status offenses, and delinquency. Chapters on children's rights and obligations, regulatory legislation, financial relationships, and medical decision-making permit flexible coverage. Notes following cases and article excerpts orient students and provide background for classroom discussion.

Customer Reviews

The book arrived with brown stained pages. The pages that I need are stuck together. I am very disappointed. I will have to return the book, while my classes begin in two days.

text book, fast shipping, enough said.

Supposed to be new. It was stained and the cover is torn. Hard cover book. No excuse for damage

This casebook was required for my "Children & The Law" course. It is poorly organized. To illustrate, early in the casebook the authors discuss many of the legal disabilities placed on children born to unwed parents. However, it picks up that same discussion later in the text when it discusses

adoption. This type of "organization" is present throughout the entire text and makes outlining unnecessarily difficult. The Nutshell is a mere reiteration of this casebook without all the incredibly boring and theoretical law review articles that take up about 30% of the casebook.

As I'm sure many a person did, I got this for a course in law school, but I was miffed that I had to splurge this much for 1 textbook, but it's a good book, effectively covering material on case law, and going into the analysis for each supreme-court justice's reactions to the particular case at hand. Personally, I'd shop around to see if your law bookstore has one cheaper. But if you're going into child advocacy, a book such as this is essential. One little issue is there are a couple of typos, nothing too major, just missing a 't' in there, and the like, usually it's the first letter of the words. Found 3 so far in the first 80 pages, so not too bad, but kind of eyebrow-raising in any event.
