College Physics: A Strategic Approach Technology Update Plus MasteringPhysics With EText -- Access Card Package (3rd Edition)

Synopsis

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. ~ ~ Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. ~ ~ Intended for algebra-based introductory physics courses. This package includes MasteringPhysics ~ ~ Built from the ground up for optimal learning; refined to help students focus on the big picture College Physics: A Strategic Approach Technology Update applies the best results from educational research, extensive user feedback and metadata to all design and content, helping more students understand the big picture, gain crucial problem-solving skills and confidence, and better prepare for class. ~ ~ College Physics: A Strategic Approach Technology Update, Third Edition is accompanied by a significantly more robust MasteringPhysics before, during, and after class. New Dynamic Study Modules focused on fundamental math and physics concepts help students better prepare before class while new Prelecture Videos address common misconceptions students have when learning physics for the first time while reinforcing class preparation. Now, more than 200 new QR codes appear throughout the textbook, enabling students to use their smartphone or tablet to instantly watch interactive videos about relevant demonstrations, new Dynamic Figure Videos, problem solving strategies, and solutions explained by the authors. Newly Enhanced End-of-Chapter Questions offer students instructional support right when they need it, including wrong-answer specific feedback, links to the eText, and math remediation when completing homework assignments. ~ ~ Personalize learning with MasteringPhysics MasteringPhysics from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. ~ ~ 013416783X / 9780134167831 College Physics: A Strategic Approach Technology Update Plus

MasteringPhysics with eText -- Access Card Package Package consists of: 0134143329 / 9780134143323 College Physics: A Strategic Approach Technology Update 0321905202 / 9780321905208 MasteringPhysics with Pearson eText -- ValuePack Access Card -- for College Physics: A Strategic Approach 0321908864 / 9780321908865 Student's Workbook for College Physics: A Strategic Approach Volume 1 (Chs. 1-16) 0321908872 / 9780321908872 Student's Workbook for College Physics: A Strategic Approach Volume 2 (Chs. 17-30)

Book Information

Hardcover: 1088 pages

Publisher: Pearson; 3 edition (January 17, 2016)

Language: English

ISBN-10: 013416783X

ISBN-13: 978-0134167831

Product Dimensions: 8.8 x 2.2 x 11.1 inches

Shipping Weight: 13.6 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #23,998 in Books (See Top 100 in Books) #97 in Books > Textbooks > Science & Mathematics > Physics #278 in Books > Science & Math > Physics

Customer Reviews

Randy Knight taught introductory physics for 32 years at Ohio State University and California Polytechnic University, where he is Professor Emeritus of Physics. Randy received a Ph.D. in physics from the University of California Berkeley. He was a post-doctoral fellow at the Harvard-Smithsonian Center for Astrophysics before joining the faculty at Ohio State University. It was at Ohio State, under the mentorship of Professor Leonard Jossem, that he began to learn about the research in physics education that, many years later, led to Five Easy Lessons: Strategies for Successful Physics Teaching, Physics for Scientists and Engineers: A Strategic Approach, and now to this book. Randy's research interests are in the fields of lasers, spectroscopy, and environmental science. When he's not in front of a computer, you can find Randy hiking, sea kayaking, playing the piano, or spending time with his wife Sally and their six cats.

Brian Jones has won several teaching awards at Colorado State University during his 25 years teaching in the Department of Physics. His teaching focus in recent years has been the College Physics class, including writing problems for the MCAT exam and helping students review for this test. In 2011, Brian was awarded the Robert A. Millikan Medal of the American Association of

Physics Teachers for his work as director of the Little Shop of Physics, a hands-on science outreach program. He is actively exploring the effectiveness of methods of informal science education and how to extend these lessons to the college classroom. Brian has been invited to give workshops on techniques of science instruction throughout the United States and in Belize, Chile, Ethiopia, Azerbaijan, Mexico, and Slovenia. Brian and his wife Carol have dozens of fruit trees and bushes in their yard, including an apple tree that was propagated from a tree in Isaac Newton's garden. Stuart Field has been interested in science and technology his whole life. While in school he built telescopes, electronic circuits, and computers. After attending Stanford University, he earned a Ph.D. at the University of Chicago, where he studied the properties of materials at ultralow temperatures. After completing a postdoctoral position at the Massachusetts Institute of Technology, he held a faculty position at the University of Michigan. Currently at Colorado State University, Stuart teaches a variety of physics courses, including algebra-based introductory physics, and was an early and enthusiastic adopter of Knight's Physics for Scientists and Engineers. Stuart maintains an active research program in the area of superconductivity. Stuart enjoys Colorado's great outdoors, where he is an avid mountain biker; he also plays in local ice hockey leagues.

This was dope. I was worried it wouldn't come with the code, but it did. It also came with two workbooks which I didn't pay for but I'm pretty stoked to have cause I have no idea what I'm doing in physics constantly so that extra help is great. Shouts out to for already knowing how I study and hooking it up. It also was all brand new which was pretty sick as well seeing as I rented the book.

Like all textbooks it was very very expensive
