Customer Reviews

I speak both English and Chinese. This is an excellent dictionary. It provides both English and Chinese in simple definitions and precise translations. Translating from English to Chinese or vice versa is tricky. There are so many synonyms both in English and Chinese and it takes a little more than "know the language" to provide accurate translations. For example the word "delve" is similar to "research", "inquire", "explore", "look into", etc. This dictionary is able to provide you with the most commonly use translation. It is a good dictionary. Affordable, handy, and good quality. I am leaving it in my daypack carrying it around.

I'm giving a star because the condition of this dictionary looks like used instead of new. Also, this dictionary doesn't worth 13 dollar compare to the original price.

it's a little bit expensive th an its original Chinese price, but it's really a cute dictionary and my daughter love it very much

good one
