I wrote this book to show other young adults just how hard being a teenage mother truly is and how deeply it affects your life, both physically and emotionally. As well as showing them the hard parts of young parenting, I also wanted to show them that no matter how hard life gets, don't lose hope and don't give up. With hard work and patience, you can find the light at the end of the tunnel, but it is up to you. Only you can choose your path and give yourself a second chance. I also wrote this book for my son. I wanted to show him that no matter how messy and

confusing things were, it was not his fault, and I will always love him unconditionally.Ã Â I will do everything I can to put the world at his feet, and he's been the best thing that ever happened to me. I would go through this storm all over again just for him.

The author definitely shows her young age. Her thought process skips back and forth from family, to horse, to school, etc. I think maybe young girls may relate but this is anything but a good book. Then to go on and re-read the whole story again in her second book is redundant. I really don't recommend this book or her second book to anyone over the age of 19. This is probably the only age that will be able to relate.

Wow, the overuse of comma's in this book was extremely distracting & made it hard to concentrate on the story. Each sentence had at least 3 comma's. It definitely needed an editor. This book also sounded as if a 14-year-old wrote it - very choppy & adolescent-like. At least I only paid \$.99 for it, as that's about what it was worth. Would not recommend.

I don't like at all. Very childish writer. This person that wrote this has a lot of growing up to do.
