Prague Self-Guided Walks: The Lesser Quarter

PRAGUE SELF-
GUIDED WALKS: THE
LESSER QUARTER

ONE OF EUROPE'S
MOST BEAUTIFUL
BAROQUE PRESERVES

KRYSTI BRICE

Synopsis

If you like to venture into a new city on your own, this walking guide will help you do just that. In this self-guided tour of the Lesser Quarter (Mala Strana), one of the most historical parts of Prague, Krysti Brice shares her expertise and knowledge of the city. Home to beautiful Baroque palaces, churches and gardens, the Lesser Quarter also contains the landmark St. Nicholas Church. Krysti also adds a personal touch to what you'll see as you make your way through Prague's cobbled medieval streets and get lost in time wandering through the Lesser Quarter's Baroque gardens and parks. A student of art and Czech history and a resident of Prague for two decades, Krysti is also the author of the popular "Prague Travel Tips: An American's Guide to Her Adopted City" and "Prague Self-Guided Walks: Old Town."

Customer Reviews

I purchased this book along with Prague Travel Tips by the same author as I would have a few days to explore Prague at the end of a business trip. The book was clear, concise, and easy to follow, and made navigating through the Lesser Quarter far easier than had I done it on my own with

random wandering. I also appreciated tips and things to watch for - I shared the book with my relatives who joined me in Prague and they found it equally valuable to assist us in focusing on the best and brightest of Prague. I also found the author to be quite helpful as she provided me with individual information to help me become acclimated with the city; all her advice was spot-on!! I would highly recommend for those visiting Prague for the first time!

Looks good I'll tell you when I get back

We were recommended to Krysti by the author of another Prague guide book. We hired her as a private guide to explore Kutna Hora. Before our trip she also suggested we check out her self-guided walks. We purchased the Old Town and Lesser Quarter self-guided walking tours and were quite pleased with both. The book takes you through the major sites with an appropriate amount of detail. At least, to me, some tour books go into much more detail than I actually care about. I want to know what period a building was built and why; I don't need to know the life-story of the prince who lived on the 2nd floor. If you want a long history lesson and minute details then I'd look to a larger guide. If, like us, you want an intelligently laid out game plan of how to see some interesting sites on foot, and some concise background information that give them more meaning then this is the guide for you.
