Citizenship Now, third edition is a citizenship preparation textbook with an interactive DVD and Audio CD.

I got this for my husband to study for his naturalization interview. I think it may be a good book used in conjunction with a class, but for studying on one's own I suspect there are better books out there. The format is a little confusing--it does a little civics/history study, then has a short section on filling out the N-400 and has a corresponding sample interview section, then goes back to civics/history and then to the N-400 again, etc. I did find the book & DVD helpful because we could see and read practice interviews, but I think the same thing can be gotten for cheaper in another book.

the package was open, cd and dvd didn't work

Very good if someone need to apply for citizenship.

Thats good
