ISBN-10: 0545177650

ISBN-13: 978-0545177658

Product Dimensions: 0.2 x 8.5 x 8.2 inches

Shipping Weight: 2.1 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 39 customer reviews

Best Sellers Rank: #50,150 in Books (See Top 100 in Books) #69 in [Books > Children's Books > Geography & Cultures > Where We Live > City Life](#) #368 in [Books > Children's Books > Cars, Trains & Things That Go](#)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

When I ordered this book for my grand daughter, I thought it was an instruction book on how to build a city out of Legos. I was disappointed to find that it was actually a book about how buildings were constructed using Legos for the illustrations. But I changed my feelings about it when I shared it with my granddaughter. We both learned some new words about machines. She was really interested in the steps involved in putting up a building and I realized that I might be able to construct some of the vehicles just by looking at the pictures. The nonfiction part of the book is told in logical sequence with simple words and minimal text on each page. It explains the work of the foreman. It shows the steps workers take such as chipping away large rocks with the jackhammer or using shovels and wheelbarrows to take away the rubble. The illustrations are hand-drawn of Lego characters and vehicles and buildings constructed from Legos. Their bright and simple but clearly depict machines such as a bulldozer, excavator, front-end loader, single-drum roller, compactor, concrete drum, skid

loader, crawler crane, mobile crane and tower cranes.

Great Lego book!

Son loves it!

This is a book about how to build a building. There is no actual story/plot (like the other Lego City books). Bummer. This book may be good for a younger child who doesn't need a story plot. My son (5 years old) likes the pictures and descriptions though.

A bit too simple even for my three-year old...

Wonderful read especially when each grandson happens to have a carpenter for a father, cousins who do ironwork in NYC and a grandfather who used to deliver the crane sections to NYC for the tower cranes! Hooray!!

6 YEAR OLD GRANDSON LOVES LEGO'S

This book is AMAZING for your little one that's learning to read. My son received these in 1st grade and was able to read them! The pictures are bright, the stories are fun and the characters are our beloved Lego men! I highly recommend these books!
