Gringo: My Life On The Edge As An International Fugitive

Synopsis

The Drug Game From The Inside Dan "Tito" Davis comes from a town in South Dakota that's so small everyone knows their neighbor's cat's name. But once he got out, he made some noise. While at the University of Nevada-Las Vegas, he started manufacturing White Crosses, aka speed, and soon had the Banditos Motorcycle Club distributing ten million pills a week. **Life On The Run** After serving a nickel, he got into the weed game, but just when he got going, he was set up by a childhood friend. Facing thirty years, Davis slipped into Mexico, not knowing a word of Spanish, which began a thirteen-year odyssey that led him to an underground hideout for a Medellin cartel, through the jungles of the Darien Gap, the middle of Mumbai's madness, and much more. **The Ultimate Fugitive Story** Tito didn't have a mega-mansion filled with pretty girls and expensive cars. He survived in the Third World facing adversity at every turn. Millions of dollars came and went as Tito stayed one step ahead of the Feds and the Federales. **A Must Read Provocative Page Turner!** Scroll up and grab a copy today.

Customer Reviews

A really close friend called me to tell me about this book, and that I should give it a read. Ordered

the book but once it arrived was busy in other things and it sat on the table for a couple of weeks. During the holidays I had time and thought I would take a few chapters a day and finish it by the new year - good plan but a few hours later I had finished the book. Wishing that the book had of been longer and that there had been more story, so exciting, what a life to live on the run always worried that you would be caught and sent back to the USA. How his escape led him to Venezuela - beginning a new life there, with a new love and wife, the admiration of the village he lived in, he certainly had put the past behind him... until that day. Happy that Dan "Tito" Davis is free and no longer looking over his shoulder, but at what cost? He lost everything that mattered to him. Spoke with my friend right after finishing the book and his thoughts were - This life of Dan Davis is so much easier to read about than to have been the one that had lived it! Hopefully the movie will fill in all the holes not told in this book and I will be the first in line to see it!

I was amazed at the story of a man on the run. Escaped by only moments, being smart of just plain lucky. Page turner in the first degree. I met Tito in Key West and he so unassuming I could then tell how he finally came out on top. I sure wish he could get his Brazilian wife back tho... I have passed the book to 3 friends.

Intense! Gringo is a book that has to be read. This is a true story. It is an adventure but one that most will want just to read and not duplicate. This book a story of Dan "Tito" Davis and his decision to start a new life on the run as a fugitive. It is not all fun and games, but intense situations and drama that keeps you turning the pages. This adventure has all the elements of fun, pleasure, fear, as well as intense life or death situations that most would not be able to fathom. He takes you to places you might want to visit and then to those you would never even think of. His story is compelling and real and written with that energy and intensity that "Tito" comes to life in front of as you read this. This book would make a fantastic movie!. Pick it up now and you won't regret it.

I really got into this book. I rarely come across a book that I would describe as a "page turner". I can usually put a book down and come back to it. This was more engaging, like I was experiencing it. By not getting bogged down in overly descriptive details the book moves fast and your imagination runs wild filling in the rest. In addition to just being an exciting read I loved the numerous glimpses into the various cultures. Things I'll likely never see in person, like people sleeping in the median of a busy road just inches from cars rushing past, but just the mention of them and the beliefs behind them highlights how foreign these places and cultures are, and adds so much to the experience. I'm

certain this book would make an excellent movie and I can't wait to see it. Not sure who would play Dan Davis, maybe Hugh Jackman. In any case, if you're looking for a very entertaining read that will hold your attention this is it...unless of course you've already been a man on the run, caught up with motorcycle assassins and drug cartels, traveling the world with beautiful women etc.and it's all just old hat for you. :)

Compelling!! I didn't want to put it down. We don't tend to think about all aspects of the life we live every day. When you are a fugitive you can't take anything for granted. This book opened my eyes to all the things I have taken for granted because they are common place. Thanks to Dan and Peter for a terrific read.

"This memoir is written with an intense, electrifying energy...propelled by sharp, energizing prose that firmly holds readers' attention as they're plunged into the dramatic, unstable Central American drug circuit...A fast-paced thrilling work about navigating the dangerous drug trade." -KIRKUS REVIEWS

Wow! Gringo creates a fever you carry with you throughout this adventure that sets you between daily success and complete failure. Live or die situations was a constant threat for Mr. Davis. The book was well written, a page-turner, and a very entertaining read as you became drawn into the life of a man who chose a life on the run. When was the last time you read a life story and cheered for the con? Pick up Gringo and enjoy your world tour with Tito.

Great book everyone should read it. One of the best I've read. Should be made into a movie.
