Sue Hamilton's *BITTEN BY A RATTLESNAKE* is an informative guide to rattlesnakes for readers 11 and up. After viewing Hamilton's book, which is part of ABDO Publishing's *CLOSE ENCOUNTERS OF THE WILD KIND*, I'd like to suggest ABDO changes the series title to *CLOSE ENCOUNTERS OF THE WORST KIND*! In 32 pages, Hamilton provides basic information on rattlesnakes and then details different species such as the Western Diamondback, Southern Pacific, Eastern Diamondback and so on. Having little knowledge of our forked-tongue little friends, I found much of interest in Hamilton's book. Comments by snake experts and, especially, rattlesnake bite victims were also quite compelling. Color photographs compliment the text. Several pix showing the effects of a rattlesnake bite may be too gruesome for some. As a basic primer on rattlesnakes, *BITTEN BY*

A RATTLESNAKE has much to offer. It is educational, informative and fascinating in its own way.

Recommended.*****Other series titles cover attacks by cougars, crocodiles, sharks, bears and bees.
